

ORGANIC CHEMISTRY DIDACTIC RULES

2nd year, field of study - Pharmacy

1. The Organic Chemistry course for second-year Pharmacy students at the Faculty of Pharmacy comprises **40 hours of lectures, 38 hours of seminars and 112 hours of laboratory classes per academic year**, and concludes with a final examination. A student may take the final examination after obtaining credits for lectures, laboratory classes and seminars in both the winter and summer semesters.
2. The laboratory course includes **8 tests** (4 in the winter semester and 4 in the summer semester). A maximum of **165 points** may be obtained from the tests: **85 points in the winter semester and 80 points in the summer semester**.
3. The requirements for passing the Organic Chemistry laboratory course are:
 - a. attendance at laboratory classes;
 - b. completion and documentation of the laboratory exercises specified in the course schedule;
 - c. passing the tests specified in the course schedule.
4. During the laboratory course, students are required to prepare **7 compounds: 3 in the winter semester and 4 in the summer semester**. A maximum of **5 points** may be awarded for each preparation, giving a total of **15 points in the winter semester and 20 points in the summer semester**.
5. A maximum of **100 points** may be obtained from the laboratory course in each semester.
6. To pass the laboratory course in a given semester, a student must obtain at least **60% of the total number of points available**.
7. The requirements for passing the seminars are:
 - a. attendance at seminar classes;
 - b. passing the intermediate tests and the final test.
8. To pass the seminars in a given semester, a student must obtain at least **60% of the total number of points available**.
9. If a student fails to obtain the required number of points from the seminars and/or laboratory course, the student is entitled to **two opportunities to take a resit test**.
10. If a student misses a class for a justified reason, the missed class must be made up at a time agreed with the teacher. In the case of a justified absence from a test, the student shall take the test at the earliest possible date.
11. The final examination is conducted **in written form**.
12. A student is entitled to take the final examination at an **early examination date** if, in each semester, the student obtains at least **85% of the total number of points available from both the laboratory course and the seminars**.
